Garden of the Names of Allah AL KHAAALIQ

Welcome to the
GARDEN OF THE
NAMES OF ALLAH.

There is no one like Allah, there is nothing like the beauty of Allah, there is nothing like the Names of Allah, nothing like the attributes of Allah and nothing like the actions of Allah.

Everything from Allah is the best, even if we see something good or beautiful in anyone, Allah still has the most beautiful names and attributes.

We are learning the Names of Allah so that
He is the important One in our life.

In this book we will learn the Name of Allah

AL KHAALIQ

The Creator.

The word (خلق) means to create and make something.

Someone can draw something, build something, invent or construct something.

When someone does anything it is not perfect.
But when Allah makes something it is perfect.

We need an example to make something, but Allah Al Khaaliq creates everything without a previous example.

He created the sky with no example before it, He created the earth and all the creation with no example before it.

Allah created Adam and there is no example before him. Allah created the angels and devils, all with no example.

And each creation has certain qualities
and colors. Look at the sky and
how its colors change.

This is all Allah Al Khaaliq.

When we look at the earth there are different types of stones and sands. Some are dry, some are loose, some are shiny and all are different colors.

When we look at the sea, there are fish living deep below. Even if people cannot see it, Allah created them.

Allah created every organ inside our body with a particular shape. The heart is not the same shapes as the lungs. The nose is not the same shape as fingers. Everything is created in the form suitable for it.

Allah created the bee to produce honey of different colors and He made them striped with the colors yellow and black.

And when we look at the leaves and trees, we find they are different colors and shapes, this is all from the impacts of Allah Al Khaaliq.

Allah Al Khaaliq made fruits of
different colors and shapes.

He made everything with the shape
and color most suitable for it.

Let us look at people and how Allah created them of different colors, different features, different eyes and different types of hair.

We have two eyes, two lips and a tongue. And there are other creations that can have more, and it is all according to what is suitable for them. So blessed is Allah the best of creators.

Every person is distinct because Allah created them in the best form. Allah created eyes and nose that is suitable for our face so we should be pleased with how Allah created us. We do not want to be like someone else.

A stylized illustration of a landscape. In the top left corner, there is a large yellow sun with several smaller yellow spots representing rays or clouds. Below the sun, there are three mountain peaks. The leftmost peak is dark green, the middle peak is a darker blue-grey, and the rightmost peak is a lighter green. At the base of the mountains, there is a dense forest of various green trees. A few small orange and black butterflies are scattered around the forest. The entire scene is set against a plain white background.

Allah did not create any of
the creations in vain or just
play, everyone is created in
the best form.

Why did Allah create us in different forms, looks and shapes? To know Allah is Al Khaaliq (The Creator) and only He can do this. He made everything the best, and this makes us worship Him alone. It makes us believe in (لَا إِلَهَ إِلَّا اللَّهُ).

When we see any creation, we should be pleased with who we are and not see ourselves as better than others or say, “look at you”. We should accept everyone and how they look because

Allah is Al Khaaliq.

He created them

When everything is the same then we will not distinguish between truth from falsehood.

The truth is (لا إله إلا الله) and to worship Allah alone,
but falsehood is when we disbelieve, associate with
Allah and fall into sins.

When we see the different creations, it is not to be proud, but to know Who is Allah.

Each creation is suitable in the way it looks.

The human is suitable to look as it is and
the sky is suitable to look as it is.

WHEN WE BELIEVE IN ALLAH
AL KHAALIQ...
WHAT SHOULD WE DO?

Allah created us to worship Him
and love Him.

If there is something we do not have, then we ask Allah to create for us the best deeds, best actions and best creations with no example.

SURAH AL MU'MINOON 14

ف تَبَارَكَ اللَّهُ أَحْسَنُ الْخَالِقِينَ

So blessed is Allah , the best of creators.

We love Allah Al Khaaliq
